Experience

Store Associate
Sherwin-Williams   *Dec 2021 - Jan 2022*

- Assisted contractors & casual customers with locating products specific for jobs, including mixing paint colors as well as recommending products and tools
- Made payments on accounts by double checking transaction numbers with outstanding invoices found across several databases
- Unloaded inventory from supply trucks
- Ensured customer satisfaction in a fast-paced retail environment using a Point of Sale system and order entry database, frequently requiring the use of databases to determine previously purchased products and paint colors

Intern / Programming Assistant
Cumulus Broadcasting   *Sep 2016 - Oct 2018*

- Assisted Programming Director spearheading local vendor fair which included: correspondence with all vendors about dates, times, indemnification, rules etc. took payment from vendors
- Maintained music and advertisement log databases
- Curated websites and social medias for four distinct stations
- Collaborated with other departments in a fast paced office setting
- Assisted Programming Director with traffic scheduling using WideOrbit
- Ensured EAS logs were up to date

Set crew / Technical Assistant
Carey Dinner Theater   *May - July 2015 - 2017*

- Set construction: used power tools, miter saws, jigsaws, table saws, circular saws, pneumatic staple gun
- Scenic painting: included use of 14' ladders, color mixing, masking, use of joint compound, detailed painting work such as brick and wood plank designs
- Lighting and electrical work: focusing, rewiring elements, changing gels, programming cues
- Collaborated closely with other production departments to create an immersive environment for patrons
